Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JANI-PER BERRIES.

Mode of Pretaration .- Buchu, in vacuo.

Modeof Preparation.—Bachu, in vacuo. Juniper Berries, by distillation, to form a fine gia. Cubebs-extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrauce; the action of a finine destroys this (Its active principle), leaving a dark and glutinous dec action. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not tobe a Tineture, as made in Pharmacopæa, nor is it a syrap—and therefore can be used in ceasuries. macoprea, nor is it a Syrap—and therefore can be used in cases where fever or inflama-tion exist. In this, you have the knowledge of the ingredients and the mode of prepara-tion.

Hoping that you will favor it with a trial.

SHRINER'S BALSAMIC COUGH SYRUE

Will care the ASTHMA, BRONCHITIS, BLOOD SPITTING, DIFFICULTY OF BREATHING, PAIN and WEAKNESS IN THE CHEST, TROT. RLESOME COUGHING AT NIGHT, &c. It will effectually remove the Cough that frequently follows Measles, and any affection of the respiratory organ, no matter of how long standing, or whatever the age of the person. It acts as a specific, is parely vegetable, and is pleavant to the taste. Its effect is soothing, allaying the violence of the cough, facilitating expectoration, quisting the nerves and exhibitating the system. Mothers, Save Your Children No child need die of CROUP, if this Syrup Is used in time: this is a fact demonstrated by experience. No family should be without this Syrup, as that fatal disease, CROUP, comes like a thief in the night, le steal away your little ones, when regular medical ald cannot be obtained.
